**VIBRATING FEEDBACK**

# 4019V000 black/red  
 # 4019V001 black/pink  
 # 4019V003 white/pink  
 # 4019V021 white/stainless steel

## Advantages:

- Bi-directional SOMloq2 radio system
- Downward compatible with the Somloq Rollingcode radio system, making it possible to control existing operators and radio receivers
- Efficient vibration motor for long battery life
- Collision-resistant

## Advantages of SOMloq2:

- Maximum protection from hackers with 128 bit AES encryption with Rollingcode
- The option of querying door positions/reception status
- Sensible vibrating feedback
- Auto-repeat function for comfortable opening while approaching the object
- Improved range and higher reliability due to the hop function, since the signal is actively forwarded by SOMloq2 receivers

## TECHNICAL DATA

Radio system	SOMloq2
Radio commands	4
Frequency	FM 868,8 MHz FM 868,95 MHz
Range <sup>1)</sup>	approx. 60–150 m
Dimensions	79 × 26 × 13 mm

## Matching accessories:

Holder (# 4643V000 black, # 4643V001 white) for installing the hand-held transmitter in a car or on the wall and holding clip (# S10092-00001) for installing on the sun visor in a vehicle can be delivered.

- Disturbance-resistant radio signal
- 128-bit AES encryption
- Collision resistance
- Bi-directional radio control system
- Vibration
